During my recent visit to Nanjanagud on the 1st instant I found that the items of repairs suggested were all necessary. The windows opened out as sky lights have no shutters and thus admit rain water into the covered Prakaras of the temple, the large number of windows in the Sivakûta dining hall have all decayed, and the stone flagging in various parts of the temple requires re-laying and cementing. The formation of a room in a portion of the Chandrasala outside the temple will admit of lumber articles being placed therein and thus allow the main inner temple to be kept clean and tidy The present estimate therefore may if submd, be sanctioned from out of the Savings of the temple -

There are some more works to be done, such as the repair of the Vahana Mantapam, and the repair of some
